

# Classroom Strategy Design

## Overview

Once you have been teaching the curriculum in your classroom, you will be ready to discuss with your fellow teachers. An Ellipsis team member will help facilitate as you work through classroom scenarios and ensure you are building confidence with the curriculum. This training takes the shape of a virtual conversation, built for up to 10 teachers.

## Learning Outcomes

Teachers will be able to:

- Expand their knowledge by roleplaying classroom scenarios.
- Discuss potential modifications of coursework to address specific use cases.
- Share information with other teachers.
- Openly discuss issues, questions, and concerns with classroom integration.

## Outline

1. Welcome
2. Curriculum Check-In
3. Conversations and Best Practices
4. Next Steps

## What to Expect

1. You will start by answering a series of questions about your implementation of Ellipsis curriculum.
2. From there, our team will be able to focus the conversation around those topics of most interest and benefit to you. For example, through questioning, we might discover that formative assessments could be used differently, or more systematically.
3. This conversation will be sure to help you make the very most out of your Ellipsis curriculum implementation.
